Subject: 25 PA Code Ch. 95 Wastewater Treatment Requirements

FEB 4 - 2010

INDEPENDENT REGULATORY
REVIEW COMMISSION

I support action by PADEP to protect our streams, rivers and water supply from high-TDS discharges, especially from the burgeoning flow of gas drilling wastewater. The proposed standards for TDS, sulfate and chloride are a first step that must not be weakened. However, these standards do not go far enough and additional protective measures need to be taken by PADEP now to prevent further degradation of the State's waterways and water resources.

Sincerely,

Jon Levin
