Subject: DEP Changes to Chapter 95Dear Sir or Madam:

Dear Sir or Madam: Yes, by all means the new regulations are better IF we can not have a moratorium. How long are we to remain "Penn's Woods" if every square mile of woodlands has a future super fund site within ? Selling off our gifts to our heirs instead of taxing the rich and connected is immoral. Gas companies and individual land owners are getting rich or richer while the people of Pennsylvania lose. Why ? Because the cowards of the legislature refuse to tax (severance) those who benefit from our sacrifice of not just the woodlands but air and water quality. New regulations are better than just plain rape. Yours,
Margaret Susan Darby, Covington Pa. 16917
