ENVIRONMENTAL QUALITY BOARD

RE: Beaver Valley Site
"Revisions to 25 Pa. Code Chapter 95 – Wastewater Treatment Requirements"

Dear Chairman Hanger:

NOVA Chemicals Inc. (NOVA) reviewed the proposed changes to Chapter 95 and participated in the development of the comments submitted by the Pennsylvania Chemical Industry Council (PCIC). NOVA supports the comments submitted by the PCIC. In addition, NOVA would like to emphasize that the proposed rules for high-TDS wastewaters could jeopardize the continued viability of our manufacturing facility if the proposed limits were incorporated into our wastewater discharge permit.

We appreciate the opportunity to comment on these proposed rules and look forward to contributing to any efforts to develop them further.

Please call if you have any questions. I can be reached at 724-770-2350.

Sincerely,

Thomas E. DuPlessis
Senior Environmental Engineer
