INDEPENDENT REGULATORY
REVIEW COMMISSION

As a resident of NEPA, I live at Lake Carey in Wyoming County. I am writing to urge you to protect our waterways from the waste produced by gas drilling. Treatment plants are being considered for the region and would be based on small streams that cannot possibly handle all this waste and would likely be just upstream from Lake Carey. Please do all you can to put the proper regulations in place to prevent long lasting, even permanent damage to our waterways in PA. Our natural environment is one of our biggest assests and a major reason why I moved back to this area after being away for 7 years.

Thank you for your consideration!
