Dear Environmental Quality Board,

You must Pass the new proposed regs. for safe water, the effluence of Fracking!!! My father was president of Olin Chemical Corporation and in charge of Water Treatment facilities, specifically. He knows what we in the stat of PA are doing will kill future generations. He is in Naples, FL where the issue is of sufficient fresh water for the future but warnsthat we must be more careful, better stewards of the resources we are blessed with in PA, water our most precious resource and its purity and abundance must be guarded at all costs. Please Pass 25PA. Code Ch. 95-Wastewater Treatment Requirements!

Thank you .

Sincerely,

Catherine M. Rossiter
