Subject: Beech Hollow/Coal Ash

Dear Board Members & Mr Hangar,

As a resident & homeowner in North Fayette I am deeply concerned over the proposal re: the Beech Hollow fly ash site. You are going to endange my health & well-being by polluting the air I breathe & the water I drink. I have not spent my life as a nurse helping people to maintain their health to be subjected to the environmental contaminants that will abound with your project. Please consider the people you are going to affect with this project & protect them with more stringent regulation & less loopholes.

Sincerely,

Anita Hanrahan
