Subject: Robinson Power Plant

DEC 23 REC'D

INDEPENDENT REGULATORY
REVIEW COMMISSION

Dear DEP Board,

I am writing to you about the proposed power plant at Beech Hollow. I am particularly concerned about the possibility of coal ash dumping being permitted without proper regulation. I have been actively informing residents of the Seabright community, just 2 miles from the site about these hazards and many are concerned. The dumping of coal ash will greatly jeopardize our water quality and our health. I moved from the city to this area for it's cleaner water and clearer skies. This will harm the residents and future property values.

I hope you will vote against this proposition and for safer restrictions.
