**Subject:** Proposed Chapter 290 Regulations Coal Ash

DEC 23 REC'D

INDEPENDENT REGULATORY  
REVIEW COMMISSION

I am a concerned Pennsylvanian. In proposed chapter 290 we need to have real, enforced regulations of this hazardous waste. The lack of enforced regulations is creating risk of potential harm to innocent persons. Regular checks on the water quality in the area, liners, and a course of action for compromised areas are necessary for the safety of the citizens. Please do what is right.
