Subject: CH 78 Regulations

To Members of the IRRC:

I thank and applaud you for your previous ruling to help protect our rivers from pollution by the gas well-drilling process.

As you now look at regulations to address the new technology and risks of the drilling, I would simply ask that you include in your regulations the language proposed by the Harvey Consulting report in the new Chapter 78 regulations.

Thank you for your consideration.

Respectfully,

Sara Welshans
