Subject: proposed rule making on Marcellus Shale drilling

To whom it may concern,

As a life-long resident of Pennsylvania, first in Pittsburgh and now in Harrisburg, I recommend the adoption of these stronger regulations regarding 'fracking'. If even one well begins to leak fracking 'fluids' into our streams, rivers or aquifers, the damage cannot be undone! We must consider future generations in all our deliberations. We cannot allow our children to inherit an irreversibly damaged environment.

Sincerely,
Susan Norris
