RECEIVED  
IRRC

2010 JUL 28 P 3 26

To Whom It May Concern:

As a resident of Doylestown Township I feel that it is important to register my feelings regarding the development of the Marcellus Shale. While fossil fuel exploration is important to the economy of the Commonwealth, it is even more important to the environment of our region.

Recognizing that development will come, PLEASE ensure that strict regulations are established that will ensure our state remains one of the most beautiful in the country. The quality of our environment is DIRECTLY related to the quality of our economy.

Thank you.
