Subject: Proposed rulemaking

Judy Shock, 585 Harrogate Road, Pittsburgh Pa 15241

Yes, do what you can to strengthen construction standards on the wells and please enforce the regulation after it's passed. AND Please Pennsylvania, support the passage of the "Frac Act" and stop the exemption of fracking from the Clean Water Act. Insist that Pennsylvania waters be protected as best they can by insisting that the exemption be removed. And please put that severance tax in place. soon.
