To Whom This May Concern:

I was at the meeting July 19 in the Junkhomock Middle School. Heard most of the testimonies.

My recommendation is:

The Lawmakers give Department of Environmental Protection Secretary John Hanger the authority to fine the Oil and Gas Companies many millions of dollars, instead of a few thousand as of now. Perhaps they might regulate themselves.

Truly yours,
Maryann Evans

Sent my recommendation to - Senator Elizabeth Baker
and
Representative Horen Koback
