Subject: Re: 25 Pa. Code Ch. 78

Dear Environmental Quality Board,

For the protection of public health, safety and the environment, I urge the Environmental Quality Board to approve new proposed well-construction regulations (25 Pa Code Ch. 78) that require gas drilling operators to build stronger and safer wells, disclose the toxic chemicals used in the gas extraction process, and require the Pennsylvania Department of Environmental Protection to conduct more and better inspections of these wells.

Sincerely,

Hilary Aquino
