Subject: CH 78 Regulations

To Whom It May Concern:

We are landowners in rural Benton, Pennsylvania, who chose not to lease our land to the gas companies. We are deeply concerned how the hydrofracking technology and gas development will affect the environment, the water supply, and human health and safety. We are asking you to adopt the more rigid standards as set forth in the proposal made by Harvey Consulting.

In addition, the Department of Environmental Protection should be provided with adequate employees to properly implement drilling regulations.

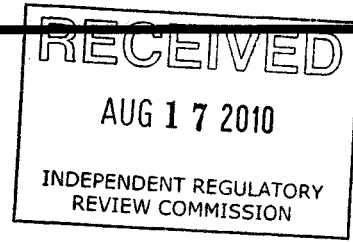

Sincerely,

Richard and Cathy Torsell
174 Hemlock Hollow Road
Benton, PA 17814
