**Subject:** chapter 78 regulations.

Dear EQB,

Your proposed changes to Chapter 78 are a good start but please don't stop there. The regulations really need more rigid standards when it comes to cement well casings, (extremely important for the safety of our water), incident reporting (to stay on top of things to prevent disaster), and air quality controls (our health needs to be top priority). Please use the Harvey Consulting report as your guide line. Thank you

Marilyn Seeling, 2172 Susque Road, Trout Run, PA 17771.
