I just became aware of the proposed mining fees!

I hope you would reconsider these price increases. In this economy small quarry operators (like myself) are struggling financially now. Many quarries closed last year.

Quarry operators hire many hard workers with less education & support their families that may not be able to compete in a corporate world! We don't need more people out of work & on welfare.

Complying with DEP + E.M.S.H.A. regulations makes it difficult to stay in business.

E.M.S.H.A. fees are totally ridiculous & out of line with the income from a quarry.

Thank you! LYNN R. POWELL
