Subject: Regulation Number #10-190 Dept of Health-EMS System

2013 AUG 14 AM 9:19

Dear Commissioners,

On behalf of the EMS providers in Beaver County we would like to show support for the passing of Regulation Number: #10-190 (IRRC #2917), Department of Health-Emergency Medical Services System. This document is important for the future of EMS in the Commonwealth of Pennsylvania. This regulation will provide a structure for a more efficient EMS system and will allow better patient care. I can say I am proud to be currently certified as an active paramedic and a Board Chairman of an EMS service with 40 employees, the passing of this regulation will make my job as an administrator and provider better for myself as well as our employees. Supporting this regulation will allow progress in the vital services that pre-hospital care providers give to those in the Commonwealth.

On August 22, 2013, we ask for your support for Regulation Number #10-190 (IRRC #2917) which implements the Emergency Medical Services System Act.

Eric J. Brewer

Deputy Director

Beaver County Emergency Services
