Gentlemen:

I am writing to express my **total support** for the new EMS Act Rules & Regulations that are awaiting approval. It is very important that we move EMS forward in the Commonwealth and without the new rules & regulations; I feel it will be close to impossible to do so.

I understand that we cannot please everyone across this Commonwealth; however, I believe that we have the best possible information in front of us to move the EMS System forward and we need it to move on with approval.

Change is hard for everyone but we need to demand that each & every person involved in the EMS System becomes more accountable & responsible for their actions within the EMS system. Being that the industry has changed dramatically over the last few years, we can no longer continue the current course of travel nor our negative thoughts.

If I may be of any assistance, please do not hesitate to contact me.

Sincerely,

Douglas L. Dick, EMT-P
EMS Chief
