(7) Briefly explain the regulation in clear and nontechnical language. (100 words or less)

With this rulemaking, the Board is proposing to replace the temporary regulation in Chapter 551 with the permanent regulation in Chapter 635a, temporary regulation in Chapter 553 with the permanent regulation in Chapter 637a, the temporary regulation in Chapter 571 with the permanent regulation in 655a and the temporary regulation in Chapter 573 with the permanent regulation in Chapter 657a.

This rulemaking provides the definitions, rules of play, payout odds and amounts and permissible wagers for the authorized table games of Spanish 21, Poker, Mississippi Stud and Crazy 4 Poker.

(8) State the statutory authority for the regulation. Include specific statutory citation.

Under the general authority in 4 Pa.C.S. § 1202(b)(30)(relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 1302A(1) – (5.1) (relating to regulatory authority).

(9) Is the regulation mandated by any federal or state law or court order, or federal regulation? Are there any relevant state or federal court decisions? If yes, cite the specific law, case or regulation as well as, any deadlines for action.

There are no other applicable federal or state statutes, regulations or court decisions that mandate adoption of these changes contained in this rulemaking.

(10) State why the regulation is needed. Explain the compelling public interest that justifies the regulation. Describe who will benefit from the regulation. Quantify the benefits as completely as possible and approximate the number of people who will benefit.

Pursuant to the Act, the Board was tasked with: establishing standards and rules to govern the conduct of table games; establishing notice requirements pertaining to minimum and maximum wagers; requiring certificate holders to provide written information or signage regarding the table game rules, payoffs, minimum and maximum wagers; and establishing the procedure to be used to determine and extract a rake from nonbanking table games. These regulations are necessary to protect the integrity of gaming and ensure the accurate collection of taxes for the Commonwealth on table game revenue.

Table game patrons will benefit from these regulations as they will have notice of the rules of play, permissible wagers and the payout odds at each game offered in the licensed facility. Additionally, with this rulemaking certificate holders will have a clear understanding of layout requirements, dealing procedures and rules of play for the table games.

(11) If data is the basis for this regulation, please provide a description of the data, explain in detail how the data was obtained, and how it meets the acceptability standard for empirical, replicable and testable data that is supported by documentation, statistics, reports, studies or research. Please submit data or supporting materials with the regulatory package. If the material exceeds 50 pages, please provide it in a searchable electronic format or provide a list of citations and internet links that, where possible, can be accessed in a searchable format in lieu of the actual material. If other data was considered but not used, please explain why that data was determined not to be acceptable.

There is no data, as defined under section (3) of the Regulatory Review Act (71 P.S. § 745.3), upon which this rulemaking is based.

(12) Describe who and how many people will be adversely affected by the regulation. How are they affected?

The Board does not anticipate that anyone will be adversely affected by this regulation.

(13) List the persons, groups or entities that will be required to comply with the regulation. Approximate the number of people who will be required to comply.

Certificate holders that elect to offer Spanish 21, Poker, Mississippi Stud and Crazy 4 Poker at their licensed facilities will be required to comply with this regulation. If electing to offer these games, an operator will be required to submit for approval the table layouts, will be required to update their gaming guides and submit a rules submission form. The rules submission form is available on the PGCB website, are standardized checklists for each and are relatively simple to fill out.

Currently, three properties offer Spanish 21, eight offer Poker and one property offers Mississippi Stud.

(14) Provide a specific estimate of the costs and/or savings to the **regulated community** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

Although operators will be required to purchase equipment to conduct the table games they choose to offer, the costs vary depending on the type and quality of equipment purchased and the number of tables installed. These costs will be offset by the revenues generated from the play of table games.

(15) Provide a specific estimate of the costs and/or savings to **local governments** associated with compliance, including any legal, accounting or consulting procedures which may be required. Explain how the dollar estimates were derived.

It is not anticipated that this regulation will require expenditures or provide savings to local governments; however, local governments will receive a local share assessment of the operator's revenue.

(16) Provide a specific estimate of the costs and/or savings to **state government** associated with the implementation of the regulation, including any legal, accounting, or consulting procedures which may be required. Explain how the dollar estimates were derived.

It is not anticipated that this regulation will require expenditures or provide savings to state government; however, with the passage of table games, state government will receive 14% of a certificate holder's gross table game revenue for two years following the commencement of table game operations. After the first two years, the state will receive 12% of gross table game revenue.

(17) In the table below, provide an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local government, and state government for the current year and five subsequent years.

	Current FY Year	FY +1 Year	FY +2 Year	FY +3 Year	FY +4 Year	FY +5 Year

(17a) Provide the past three year expenditure history for programs affected by the regulation.

Program	FY -3	FY -2	FY -1	Current FY
PGCB Overall	\$33,310,000	\$33,744,500	\$35,800,000	\$35,501,000

(18) Explain how the benefits of the regulation outweigh any cost and adverse effects.

The requirements within these chapters are standard throughout the gaming industry and are necessary to ensure the protection of the public and the integrity of gaming as well as the accurate recording of revenues and taxes. Standardized rules of play ensure that patrons who go to any licensed facility know that the basic rules of play at one facility are the same as the basic rules of play at another licensed facility.

(19) Describe the communications with and input from the public and any advisory council/group in the development and drafting of the regulation. List the specific persons and/or groups who were involved.

When the temporary regulations were promulgated, the Board provided for a 30 day public comment period whereby the industry was invited to provide suggestions for revision to the temporary regulations. Several of the suggestions received were incorporated into subsequent revisions to the temporary regulations while others were incorporated into this proposed rulemaking.

(20) Include a description of any alternative regulatory provisions which have been considered and rejected and a statement that the least burdensome acceptable alternative has been selected.

No other regulatory schemes were considered.

(21) Are there any provisions that are more stringent than federal standards? If yes, identify the specific provisions and the compelling Pennsylvania interest that demands stronger regulations.

There are no corresponding Federal requirements.

(22) How does this regulation compare with those of other states? How will this affect Pennsylvania's ability to compete with other states?

The regulations are consistent with the standards throughout the gaming industry and are consistent with the objectives and requirements of the Gaming Act. These regulations should therefore not affect Pennsylvania's ability to compete with other states.

(23) Will the regulation affect any other regulations of the promulgating agency or other state agencies? If yes, explain and provide specific citations.

With this rulemaking, the Board is proposing to replace the temporary regulation in Chapter 551 with the permanent regulation in Chapter 635a., temporary regulation in Chapter 553 with the permanent regulation in Chapter 637a., the temporary regulation in Chapter 571 with the permanent regulation in 655a and the temporary regulation in Chapter 573 with the permanent regulation in Chapter 657a.

(24) Submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.

This rulemaking will require certificate holders to: post signs at gaming tables; have complete sets of rules for all the games they offer available for public inspection; produce a gaming guide summarizing the rules of the games they offer; and file Rules Submissions for each table game they elect to offer. The Rules Submissions are standardized checklists for each game, are relatively simple to fill out and are available on the Gaming Board website at <http://www.pgcb.pa.gov>. Additionally, the certificate holder may submit these forms directly to the Bureau of Gaming Operations using the link provided on the website.

(25) Please list any special provisions which have been developed to meet the particular needs of affected groups or persons including, but not limited to, minorities, elderly, small businesses, and farmers.

No special provisions have been added.

(26) Include a schedule for review of the regulation including:

- | | |
|---|------------------------------------|
| A. The date by which the agency must receive public comments: | <u>Final-form – N/A</u> |
| B. The date or dates on which public meetings or hearings will be held: | <u>N/A</u> |
| C. The expected date of promulgation of the proposed regulation as a final-form regulation: | <u>2nd Quarter 2012</u> |
| D. The expected effective date of the final-form regulation: | <u>Upon final publication</u> |
| E. The date by which compliance with the final-form regulation will be required: | <u>Upon final publication</u> |
| F. The date by which required permits, licenses or other approvals must be obtained: | <u>N/A</u> |

(27) Provide the schedule for continual review of the regulation.

No formal review schedule has been established. Instead, the Board is constantly reviewing its regulations and proposing amendments as the need arises.

FINAL-FORM RULEMAKING

PENNSYLVANIA GAMING CONTROL BOARD

58 PA.CODE CHS. 551, 553, 571, 573, 635a, 637a, 655a and 657a.

Table Game Rules for Spanish 21, Poker, Mississippi Stud and Crazy 4 Poker.

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 1302A(1) - (4) (relating to regulatory authority), proposes to rescind Chapters 551, 553, 571 and 573 and add Chapters 635a, 637a, 655a and 657a to read as set forth in Annex A.

Purpose of the Final-form Rulemaking

In accordance with 4 Pa.C.S. § 1303A (relating to temporary regulations), the Board adopted temporary regulations in Chapter 551 at 40 Pa.B. 2959 (June 5, 2010), in Chapter 553 at 40 Pa.B. 1156 (March 6, 2010), in Chapter 571 at 41 Pa.B. 2952 (June 11, 2011) and in Chapter 573 at 41 Pa.B. 3825 (July 16, 2011).

With this proposed rulemaking, the Board is replacing the temporary regulations in Chapter 551 (relating to Spanish 21) with the permanent regulations in Chapter 635a (relating to Spanish 21), temporary regulations in Chapter 553 (relating to Poker) with the permanent regulations in Chapter 637a (relating to Poker), the temporary regulations in Chapter 571 (relating to Mississippi Stud) with the permanent regulations in 655a (relating to Mississippi Stud) and the temporary regulations in Chapter 573 (relating to Crazy 4 Poker) with the permanent regulations in Chapter 657a (relating to Crazy 4 Poker).

Implementation of Subpart K

To reduce confusion in the regulated community and to ensure that references are valid when printed as a final-form rulemaking, the Legislative Reference Bureau will hold all final-form rulemakings which contain references to other chapters that have not been printed as final-form

rulemakings. Those approved final-form rulemakings will be published collectively.

Explanation of Chapter 635a

Chapter 635a contains the rules governing the play of Spanish 21. Section 635a.1 (relating to definitions) contains the definitions of terms used throughout the chapter. In § 635a.2 (relating to Spanish 21 table; card reader device; physical characteristics; inspections), the physical characteristics of the table and card reader device are specified.

The remaining sections address the following: the number of decks of cards used for play of the game; the opening of the Spanish 21 table for play; the shuffling of cards; permissible wagers; dealing procedures; the payout odds for permissible wagers; and how irregularities in play are to be handled.

Explanation of Chapter 637a

Chapter 637a contains the rules governing the play of nonbanked Poker games. Section 637a.1 (relating to definitions) contains the definitions of terms used throughout the chapter. In § 637a.2 (relating to Poker table physical characteristics), the physical characteristics of the table are specified.

The remaining sections address the following: the number of decks of cards used for play of the game; the opening of the Poker table for play; the shuffling of cards; the value and rank of the cards; placement of bets; dealing procedures; how Poker revenue is calculated; the conduct of players at a Poker table; and how irregularities in play are to be handled.

Based on requests received from the operators on the temporary rulemaking, an additional Seven-card Stud Poker game, Seven-card Stud Low, also known as Razz, was added to the proposed rulemaking. Additionally, in Hold 'Em and Omaha Poker, the Straddle Bet was added as an optional bet if allowed by the certificate holder.

Explanation of Chapter 655a

Chapter 655a contains the rules governing the play of Mississippi Stud. Section 655a.1 (relating to definitions) contains the definitions of terms used throughout the chapter. In § 655a.2 (relating to Mississippi Stud table physical characteristics), the physical characteristics of the table are specified.

The remaining sections address the following: the number of decks of cards used for play of the game; the opening of the Mississippi Stud table for play; the shuffling of cards; the value and rank of the cards; permissible wagers; dealing procedures; the payout odds for all permissible wagers; and how irregularities in play are to be handled.

Explanation of Chapter 657a

Chapter 657a contains the rules governing the play of Crazy 4 Poker. Section 657a.1 (relating to definitions) contains the definitions of terms used throughout the chapter. In § 657a.2 (relating to Crazy 4 Poker table physical characteristics), the physical characteristics of the table are specified.

The remaining sections address the following: the number of decks of cards used for play of the game; the opening of the Crazy 4 Poker table for play; the shuffling of cards; the value and rank of the cards; permissible wagers; dealing procedures; the payout odds for all permissible wagers; and how irregularities in play are to be handled.

Comment and Response Summary

Notice of the proposed rulemaking was published at 41 Pa.B 5963 (November 5, 2011). During the comment period the Board received comments from Greenwood Gaming and Entertainment (Parx). On January 4, 2012 the Board received comments from the Independent Regulatory Review Commission on the rulemaking.

General Comments

IRRC commented that several of the sections throughout the rulemaking require operators to obtain approval of equipment and table game layouts from the Bureau of Gaming Operators (BGO) or the Bureau of Casino Compliance (BCC). The proposed regulation, however, didn't specify how that approval was to be obtained. IRRC suggested adding the

submission and approval process or a cross-reference to where the process may be found.

In the final-form rulemaking, the Board amended the requirements to state that the operators submit information to the BGO for Executive Director approval. Additionally, throughout the rulemaking, the cross-reference to the submission and approval process found in § 601a.10 (relating to approval of table game layouts, signage and equipment) was added. This provision is contained in final-form rulemaking 125-142 which was adopted by the Board on November 22, 2011 and approved by IRRC on January 12, 2012.

635a. Spanish 21

IRRC requested that the Board provide information regarding the house edge for Spanish 21 and compare it to other gaming jurisdictions. For the facilities offering the game in New Jersey, the hold percentage from July to November ranged from 18.2% to 38.3%. For the few facilities offering Spanish 21 in Pennsylvania, the hold percentage ranged from 14.88% - 26.64% for the same time period.

637a. Poker

Parx requested that the Board add additional Poker games to the final-form rulemaking. IRRC asked that the Board consider the option and promulgate any additional Poker games in a subsequent rulemaking.

The Board has established a procedure for operators to request additional side wagers and game variations. The games requested by Parx were not previously submitted for approval in accordance with § 521.4 (relating to request to offer a new table game or new feature of an existing table game) of the temporary regulations or § 601a.3 in final-form rulemaking 125-142. The Board, however, will review these games and adopt regulations in a subsequent rulemaking.

Section 637a.2(b) requires that each table have a holding area designated for the collection of the rake. Parx commented that the facility utilizes a slide instead of placing the rake in the inventory container and therefore requests that the regulation allow for the placement of the rake on the slide rather than on the designated area of the table. The Board agrees and has added language allowing for a different location for the placement of the rake.

Section 637a.3(c) requires that the cards utilized in Poker be changed out at least every 6 hours. Parx requested to allow the cards to remain on the table for 24 hours citing that decks cost approximately \$18.50 per deck and are designed to endure more use than the cards utilized at a banking table game. IRRC requested that the Board quantify the costs of cards and explain why cards need to be changed every 6 hours.

The Board agrees that cards utilized in Poker are more expensive than the cards utilized in banking games. However, unlike decks of cards utilized in banking games, which are destroyed after they are removed from the gaming table (every 8 hours or after each shoe depending on the game), Poker cards are repeatedly reused if they are inspected and still suitable for play. On average, a deck of Poker cards can be used for approximately 90 hours or 15 uses before it is no longer suitable for continued use. The greater number of times the cards are reused, however, the more often they should be removed from play and inspected to determine if they are still suitable for play. Because the cards are touched by the players and each deck is used in every other round of play, the cards need to be removed and inspected for marks, scratches, shaving and other signs of cheating.

Additionally, the Board already reduced the number of decks that are required to be rotated in and out of play within a 24 hour period from 6 to 4 (See § 603a.15(j) in final-form rulemaking 125-142). To coordinate with that requirement, the Board did increase in this rulemaking the number of hours that the two decks could remain on the table from 6 hours to 12 hours.

Section 637a.8 states that cash wagers may be accepted provided that they are expeditiously converted into chips. Parx states that in no-limit games the cash cannot be expeditiously converted in all instances and therefore requests to delete the conversion provision.

While the Board appreciates the operational convenience of playing a cash game, the Board nevertheless believes the requirement of converting to chips provides a sound environment for game protection and the accurate accounting of revenue.

Section 637a.9(c) allows operators to announce availability of Poker games and seating. IRRC inquired

whether there were any guidelines in place to address availability and how the vacancies are filled. IRRC believes that patrons would benefit and the integrity of gaming would be enhanced if certificate holders were required to disclose how patrons are seated and asks the Board to require that signage be posted.

Poker seating is based on patron demand and is not something the Board dictates. If there is no seating available for a particular type of Poker and specific min/max bet, players place their names on a waiting list for the next available seat. If a player comes in and would like to play a type of Poker not currently being played, the facility may post that there is interest in a new game and the min/max amounts. If enough players sign up for that game and a table and dealer are available, the facility may offer the game. The Board therefore doesn't believe that signage is necessary.

IRRC requested that the Board review § 637a.10(k) to ensure that the examples in (1) and (2) are both correct, which they are.

Section 637a.11(k) and 637a.12(k)(2)(ii) and (iii) specifies which players receive the excess amount of pots that are divided equally. Parx requested that the player closest to the small blind be given the excess amount. Presque Isle recently filed a similar written request proposing to give the excess chip to the player closest to the dealer button. To accommodate both of these requests, the Board has added language allowing the certificate holder to specify in its rules submission which player will receive the excess value chip.

Subsection 12(k)(2) also requires that when players tie, the pot be divided equally, with any excess amount, not to exceed \$1, given to a specific player. Parx requested to allow the lowest denomination played during that round to be given instead of \$1.

The exception in the rulemaking specifying who the excess chip would be given to was added because there is no denomination value chip lower than \$1. Out of fairness to all players who have tied, the pot should be divided equally, with the excess, not to exceed the lowest denomination value chip, given to the player designated in the certificate holder's rules submission.

Section 637a.16(h) requires that High Hand Jackpot payouts be paid from the main cage or satellite cage. IRRC inquired whether the integrity of gaming would be compromised if the jackpots were paid from the Poker room.

Not all facilities have a Poker cage; however, a Poker cage is considered a satellite cage which is specifically designated in the regulation.

Payouts for both the High Hand Jackpot and Bad Beat payout originate in the cage, are maintained and controlled by finance and cannot be paid from a table inventory container. The requirements in the section on High Hand Jackpot payouts are slightly different than the requirements for Bad Beat payouts because a Bad Beat payout is contingent on receiving a specific hand, which is then immediately paid. A player participating in High Hand, however, may not be in the Poker room or even in the licensed facility when the qualifying period is over and a winner is declared. The winning player's information, along with the High Hand Jackpot payout amount is therefore maintained in the cage until paid to the winner.

Section 637a.17 addresses the options for collecting the rake (revenue from nonbanking table games). IRRC inquired how other gaming jurisdictions regulate the rake for Poker. IRRC also recommends that the Board place a cap on the amount of the rake.

There are three types of Poker rake contemplated in the regulation and all are used in New Jersey, with no mandated cap on the rake amount. Different types of rakes may be used at different tables depending on game being offered, the table limits and the number of players. An incremental rake is typically capped by the operators at no more than \$6 depending on the number of players participating and the total pot amount. For a \$50 pot, for instance, the rake amount may be \$6. The percentage rake is capped in the regulation at 10% of the pot. A rake based on time charges ranges from \$6 to \$30 per hour depending again on the number of players and the table limits.

Operators submit the rake amounts charged in their rules submissions which are reviewed and approved or rejected by agency staff. While the Board will not authorize rake charges that are predatory or excessive, the Board doesn't believe it is necessary to cap the maximum rake amounts by regulation.

In section 637a.18, operators are required to place a sign or cover any shuffler that is broken before another shuffling method can be used. Parx requests that the Board amend the requirement to allow the operator to switch out malfunctioning shufflers for working shufflers.

The Board doesn't believe it necessary to specify that operators can replace broken equipment. This provision merely requires that if a shuffler breaks and another shuffling procedure is utilized, a hand shuffle, that an out of order sign or cover be placed on the shuffler prior to utilizing the other shuffling method. If the operator is going to use the same shuffling method and switch out the broken shuffler, then the requirement to cover doesn't apply.

655a. Mississippi Stud

IRRC requested that the Board provide information regarding the house edge for Mississippi Stud and compare it to other gaming jurisdictions. The average from July to November for the few facilities offering the game in New Jersey ranged from 16.9% to 31.1%. Mississippi Stud was only recently added at one facility in Pennsylvania. The theoretical house edge for the game is approximately 1.58%.

657a. Crazy 4 Poker

IRRC requested that the Board provide information regarding the house edge for Crazy 4 Poker and compare it to other gaming jurisdictions.

The theoretical house edge for Crazy 4 Poker is between 3.35% and 6.78% depending on the options selected by the operator. Currently there are no facilities in Pennsylvania or New Jersey that offer Crazy 4 Poker.

Additional Revisions

In § 635a.5 (relating to shuffle and cut of the cards), language regarding the mark on the dealing shoe in subsection (d) was deleted for consistency with revisions made to the table game equipment chapter in rulemaking 125-137. Subsection (h) was amended for clarity and allows operators to utilize an automated dealing shoe/shuffler.

In 635a.7, subsections (h) and (i) were amended and no longer require the dealer to announce the point count of each player. Several operators had previously stated that requiring that the point count be announced after each card is dealt only served to annoy players. Dealers, however, are still required to announce the point count of their hand after each card is dealt.

In 637a.2 (relating to Poker table physical characteristics), subsection (a) was amended and no longer requires the operators to receive approval for the design of the Poker table.

In 655a.1 (relating to definitions), the definition of round of play was deleted as it was moved into Chapter 601a (relating to general provisions) which addresses the definitions applicable to all of Subpart K.

Section 655a.5(g) (relating to shuffle and cut of the cards) was amended for clarity and allows operators to utilize an automated dealing shoe/shuffler.

A new side wager was added to Mississippi Stud, the Three Card Bonus, the description of which is contained in § 655a.7(d)(4) (relating to wagers). The rankings of the hands for that side wager were added in § 655a.6(c) (relating to Mississippi Stud hand rankings) and the payout odds were added in § 655a.12(d) (relating to payout odds; Envy Bonus; rate of progression).

In 657a.1 (relating to definitions), the definition of round of play was deleted as it was moved into Chapter 601a (relating to general provisions) which addresses the definitions applicable to all of Subpart K.

Section 657a.5(g) (relating to shuffle and cut of the cards) was amended for clarity and allows operators to utilize an automated dealing shoe/shuffler.

In section 657a.12 (relating to payout odds; Envy Bonus; rate of progression), the payout odds for the three-of-a-kind was corrected in table B.

Affected Parties

Certificate holders that elect to offer the games of Spanish 21, Poker, Mississippi Stud and Crazy 4 Poker are

required to comply with these requirements. The requirements for the games are standard throughout the industry, consistent with 4 Pa.C.S. Part II (relating to gaming) and are necessary for the protection of the gaming public and the revenues generated from table games.

The Board has experienced increased regulatory demands resulting from the implementation of table games including the review of Rules Submissions, table layouts, signage and gaming guides.

Fiscal Impact

Commonwealth. The Board will have to review each certificate holder's table games Rules Submissions, table layouts, signage and gaming guides to ensure compliance with the regulatory requirements in this proposed rulemaking. These reviews will be conducted by existing Bureau of Gaming Operations and Bureau of Casino Compliance staff. The Board does not project that it will incur significant cost increases as a result of this proposed rulemaking.

Political subdivisions. This proposed rulemaking will not have a fiscal impact on political subdivisions of this Commonwealth. Host municipalities and counties will benefit from the local share funding mandated by the act of January 7, 2010 (P.L. 1, No. 1).

Private sector. This proposed rulemaking will result in additional costs for certificate holders that elect to offer Spanish 21, Poker, Mississippi Stud and Crazy 4 Poker. Certificate holders will be required to purchase the table games they elect to offer and to hire and train employees to operate the games. The costs for table game equipment do vary depending on the type and number of tables purchased. The costs are expected to be offset by the revenues generated from table game operations.

General public. This proposed rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

This proposed rulemaking will require certificate holders to post signs at gaming tables, have complete sets of rules available for public inspection, produce a gaming guide

summarizing the rules of play and file Rules Submissions for each table game they elect to offer. The Rules Submissions are standardized checklists for each game, are relatively simple to fill out and are available on the Board's web site. Additionally, there is a link on the web site for submitting the forms directly to the Bureau of Gaming Operations for review and approval.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

(c) Each Spanish 21 table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance IN ACCORDANCE WITH § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Spanish 21 table must have a card reader device, ~~approved by the Bureau of Gaming Operations,~~ attached to the top of the dealer's side of the table. The floorperson assigned to the Spanish 21 table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Spanish 21 table must have a discard rack securely attached to the top of the dealer's side of the table. The height of the discard rack must either:

(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 635a.3. Cards; number of decks; value of cards.

(a) Spanish 21 shall be played with six or eight decks of cards that are identical in appearance and at least one cover card. The decks shall consist of 48 cards, with the 10 of each suit removed from each deck during the

inspection required under § 635a.4 (relating to opening of the table for gaming).

(b) The decks of cards opened for use at a Spanish 21 table shall be changed at least once every 24 hours.

(c) The value of the cards shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11, unless that value would give a player or the dealer a score in excess of 21, in which case, the ace shall have a value of 1.

§ 635a.4. Opening of the table for gaming.

(a) After receiving the decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) If the decks contain the 10 of any suit, the dealer and a floorperson shall ensure that these cards are removed from the decks, torn in half and placed in the box, envelope or container that the decks came from.

(c) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be

spread in horizontal fan shaped columns by deck according to suit and in sequence.

(d) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 635a.5 (relating to shuffle and cut of the cards).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a), (c) and (d) do not apply.

§ 635a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single

stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with backs facing ~~up~~ AWAY FROM THE DEALER, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose ~~box~~ BETTING AREA the cover card appeared during the last round of play.

(3) IF THE COVER CARD APPEARED ON THE DEALER'S HAND DURING THE LAST ROUND OF PLAY, THE ~~The~~ player at the farthest point to the right of the dealer ~~if the cover card appeared on the dealer's hand during the last round of play~~. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) IF THE RESHUFFLE WAS INITIATED AT THE DISCRETION OF THE FLOORPERSON, THE ~~The~~ player at the farthest position to the right of the dealer ~~if the~~

~~reshuffle was initiated at the discretion of a floorperson.~~
If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then ~~take the entire stack of cards and align them along the side of the dealing shoe which has a mark that will allow the dealer to insert~~ the cover card in the stack at a position at least ~~1/4~~ ONE-QUARTER of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before ~~any~~ THE cards have been ~~dealt~~ PLACED IN THE DEALING SHOE, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be cut either by the player who last cut the cards or by the next player entitled to cut the cards, as determined ~~by~~ UNDER subsection (c). THE STACK OF CARDS SHALL THEN BE INSERTED INTO THE DEALING SHOE FOR COMMENCEMENT OF PLAY.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe as provided ~~for~~ in § 635a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Spanish 21 table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table for inspection face down unless a player requests that the cards be spread face up on the table. After the first player at the table is afforded an opportunity to visually inspect the cards, the procedures in § 635a.4(d) (relating to opening of the table for gaming) and this section shall be completed.

~~(h) In lieu of the dealing and shuffling requirements in this section, a certificate holder may utilize a dealing shoe or other device designed to automatically reshuffle the cards, provided that the device and the procedures for dealing and shuffling the cards through the use of this device are approved by the Bureau of Gaming Laboratory Operations.~~ A CERTIFICATE HOLDER MAY UTILIZE A DEALING SHOE OR OTHER DEVICE THAT AUTOMATICALLY RESHUFFLES AND COUNTS THE CARDS, PROVIDED THAT THE DEVICE IS APPROVED IN

ACCORDANCE WITH § 461a.4 (RELATING TO SUBMISSION FOR TESTING AND APPROVAL) PRIOR TO ITS USE IN THE LICENSED FACILITY. IF A CERTIFICATE HOLDER IS UTILIZING THE APPROVED DEVICE, THE REQUIREMENTS IN SUBSECTIONS (B) - (G) DO NOT APPLY.

§ 635a.6. Wagers.

(a) Wagers at Spanish 21 shall be made by placing value chips, ~~or~~ plaques OR OTHER BOARD APPROVED WAGERING INSTRUMENTS on the appropriate areas of the Spanish 21 layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(b) After the cards have been shuffled as required under § 635a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any person, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent rounds of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except an Insurance Wager under § 635a.8 (relating to Insurance Wager), a Double Down Wager

under § 635a.10 (relating to Double Down Wager; rescue) or a wager on split pairs under § 635a.11 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect TO that ~~that~~ wager.

(d) To participate in a round of play and compete against the dealer's hand, a player shall place a Spanish 21 Wager.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player who placed a Spanish 21 Wager in accordance with subsection (d) the option of placing a Match-the-Dealer Wager that either of the player's initial two cards will match the rank of the dealer's up card.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Spanish 21 Wager in one round of play.

§ 635a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards used to play Spanish 21 shall be dealt from a dealing SHOE located on the table in a location approved by the Bureau of Casino Compliance IN ACCORDANCE WITH § 601a.10(g) (RELATING TO APPROVAL OF TABLE GAME LAYOUTS, SIGNAGE AND EQUIPMENT). Once the procedures under § 635a.5 (relating to shuffle and cut of the cards) ~~has~~ HAVE been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the first two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand shall be completed. The dealer shall

then collect and reshuffle the cards in accordance with § 635a.5.

(e) At the commencement of each round of play, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Spanish 21 Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before a card reader device is utilized, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle all Match-the-Dealer Wagers by collecting all losing wagers and paying all winning wagers as follows:

(1) If either of the player's initial two cards match the rank of the dealer's up card, the dealer shall pay the winning Match-the-Dealer Wager in accordance with § 635a.12(e) (relating to payout odds). Any card with a point

value of 10 (a jack, queen or king) must only match an identical card without regard to value.

(2) If both of the player's initial two cards match the rank of the dealer's up card, the player shall be paid for each matching card.

(g) After settling the player's optional wagers in accordance with subsection (f), if the dealer's first card is an ace, king, queen or a jack, the dealer shall, after offering the Insurance Wager in accordance with § 635a.8 (relating to Insurance Wager), determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, no additional cards shall be dealt and each player's Spanish 21 and Insurance Wagers, if applicable, shall be settled.

(h) After the procedures in subsection (g) have been completed, if necessary, the dealer shall, ~~starting~~ START with the player farthest to the dealer's left and ~~continuing~~ CONTINUE around the table in a clockwise direction, ~~announce the point total of each player. Each player at the table shall be responsible for correctly~~

~~computing the point count of his hand and no player shall rely on the point counts announced by the dealer.~~

(2) Does not have Blackjack, ~~as each player's point total is announced,~~ the player shall indicate whether he wishes to surrender, as permitted under § 635a.9 (relating to surrender), double down as permitted under § 635a.10 (relating to Double Down Wager; rescue), split pairs as permitted under § 635a.11 (relating to splitting pairs), stand or draw additional cards.

~~(j)~~ (I) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision ~~and~~

~~announce the new point total of the player after each additional card is dealt.~~

~~(k)~~ (J) A player may elect to draw additional cards whenever his point count total is less than 21, except that the player:

(1) Having Blackjack or a hard or soft total of 21 may not draw additional cards.

(2) Electing to make a Double Down Wager may draw only one additional card.

~~(l)~~ (K) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hold card face up. Any additional cards required to be dealt to the hand of the dealer, in accordance with subsection ~~(m)~~ (L), shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(3) The player has a Blackjack and the dealer's hand has a total ~~value~~ POINT COUNT of 21 in two or more cards.

~~(4) The player has achieved a score of 21 in more than two cards and the dealer has achieved a score of 21 in more than two cards~~ TOTAL POINT COUNT OF THE PLAYER'S HAND AND THE DEALER'S HAND IS 21 IN MORE THAN TWO CARDS.

~~(p)~~ (O) Except as provided in subsection ~~(e)~~~~(3)~~ (N)(3) and (4), a Spanish 21 Wager shall tie and be returned to the player if the total ~~value~~ POINT COUNT of the player's hand is the same as the dealer's. A player's Spanish 21 Wager shall be lost if the dealer has a Blackjack and the player's hand has a total ~~value~~ POINT COUNT of 21 in more than two cards.

~~(r)~~ (Q) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

~~(s)~~ (R) Players and spectators may not handle, remove or alter any cards used to play Spanish 21.

§ 635a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player ~~shall have the right to~~ MAY make an Insurance

Wager which shall win if the dealer's hole card is a king, queen or jack.

(b) An Insurance Wager shall be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 the player's initial Spanish 21 Wager. A player may wager an amount in excess of 1/2 the initial Spanish 21 Wager to the next unit that can be wagered in chips when, because of the limitation of the value of chip denominations, half the initial Spanish 21 Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 635a.12(d) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

(E) NOTWITHSTANDING THE REQUIREMENTS OF SUBSECTION (A) - (D), A CERTIFICATE HOLDER MAY, IF SELECTED IN ITS RULES SUBMISSION UNDER § 601A.2 (RELATING TO TABLE GAMES RULES SUBMISSIONS), OFFER A PLAYER WHO HAS BLACKJACK THE OPTION TO BE PAID EVEN MONEY ON THE SPANISH 21 WAGER INSTEAD OF MAKING AN INSURANCE WAGER. THE DEALER SHALL PAY OUT THE

SPANISH 21 WAGER AT ODDS OF 1 TO 1 AND REMOVE THE PLAYER'S CARDS.

§ 635a.9. Surrender.

(a) After the first two cards are dealt to the player ~~and the player's point total is announced~~, the player may elect to discontinue play on his hand for that round by surrendering 1/2 of his Spanish 21 Wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 635a.10 (relating to Double Down Wager; rescue), split pairs as permitted under § 635a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer is:

(1) Not an ace or 10 VALUE card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) An ace or 10 VALUE card, the dealer shall place the player's wager on top of the player's cards. When the dealer's second card is revealed, the hand shall be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 635a.8 (relating to Insurance Wager).

§ 635a.10. Double Down Wager; rescue.

(a) Except when a player has Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original Spanish 21 Wager, on the first two cards dealt to him or the first two cards of any split pair. Only one additional card shall be dealt to the hand on which the player has elected to double down. The one additional card shall be dealt face up and placed sideways on the layout.

(b) If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall collect only the amount of the original Spanish 21 Wager of the player and may not collect the additional Double Down Wager.

(c) A winning Double Down Wager shall be paid in accordance with § 635a.12(a) (relating to payout odds). The additional payouts in § 635a.12(b) and (c) are not applicable to winning Double Down Wagers.

(d) After the additional card required under subsection (a) has been dealt to the hand, a player may "rescue" (take back) the Double Down Wager and forfeit his

original wager, as long as the additional card does not result in the hand having a TOTAL point count in excess of 21.

§ 635a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands, provided that he makes a wager on the second hand formed in an amount equal to his original Spanish 21 Wager. For example, if a player has two 7s or a king and a jack, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

(c) After a second card is dealt to a split pair hand, ~~the dealer shall announce the point total of the hand and~~ the player shall indicate his decision to stand, draw or double down with respect to that hand. A certificate holder shall specify in its Rules Submission under § 601a.2

(relating to table games Rules Submissions) the number of additional times a patron may split pairs, including aces.

(d) If the dealer obtains Blackjack after a player splits pairs, the dealer shall ~~only~~ collect ONLY the amount

of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

(e) The additional payouts provided in § 635a.12(b) and (c) (relating to payout odds) are not applicable to a winning wager on a split hand.

§ 635a.12. Payout odds.

(a) Except as provided in subsections (b) and (c), the certificate holder shall pay each winning Spanish 21 Wager at odds of 1 to 1 with the exception of Blackjack which shall be paid at odds of 3 to 2.

(b) Except when a player has made a Double Down Wager under § 635a.10 (relating to Double Down Wager; rescue), in which case all of the following wagers shall be paid at odds of 1 to 1, a certificate holder shall pay the following payout odds for winning Spanish 21 Wagers:

(1) Three cards consisting of 6, 7 and 8 of mixed suits shall be paid at odds of 3 to 2.

(2) Three cards consisting of 6, 7 and 8 of the same suit shall be paid at odds of 2 to 1, except that three cards consisting of the 6, 7 and 8 of spades shall be paid at odds of 3 to 1.

(e) Once each High Hand Jackpot payout box or locked container is delivered to the main cage or satellite cage, a cashier shall count the contents of each box or, if the contents of the boxes were previously counted by Poker room personnel and combined in a locked container for transport, verify the aggregate count. The finance department shall maintain the official record of the amount of contributions to the High Hand Jackpot payout.

(f) At the start of each qualifying period, dealers shall begin tracking hands. When a player has a full house, as defined in § 637a.6(b) (relating to Poker rankings), the dealer shall call a floorperson or above who shall verify the hand and record the value on the High Hand Tracking Slip. (iii) May be assessed fractionally every 20 or 30 minutes as determined by the certificate holder.

(iv) Once assessed shall be placed by the dealer into the designated rake area required under § 637a.2(b)(2).

(c) A sign describing the type and amount of rake to be collected under subsection (b) shall be posted at each Poker table.

(d) An uncalled final bet may not be considered part of the pot for purposes of calculating the amount of rake under subsection (b)(1) and (2).

(e) Once the dealer has extracted the rake and the pot and any side pots have been collected by the winning player or players, additional rake may not be taken.

§ 637a.18. Conduct of players; general operating rules for all types of Poker; irregularities.

(a) In all disputes in which a ruling, interpretation, clarification or intervention is required, the decision of the Poker shift supervisor is final.

(b) Each player in a Poker game shall play the game solely to improve the player's chance of winning and may not take action to improve another player's chance of winning. A player may not communicate any information to another player which could assist the other player in any manner respecting the outcome of a Poker game.

(c) A certificate holder who has reasonable cause to believe that a player has acted or is acting in violation of subsection (b) may require the player to leave the game

and shall notify a casino compliance representative as expeditiously as possible.

(d) Each player shall keep all cards dealt to the player in full view of the dealer at all times. The dealer shall ensure compliance with this requirement.

(e) At a showdown, a winning hand must be clearly displayed in its entirety and properly identified. The player initiating the final bet shall be the first player to show his hand at the showdown. All other players who have not folded shall then reveal their hands in a clockwise rotation. Any player holding a losing hand may concede his rights to the pot and discard the hand without revealing the player's cards unless the certificate holder, in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), requires the disclosure of all discarded hands.

(f) It shall be the responsibility of each player in a showdown to ensure that the player's hand has lost to the other hands at the table before discarding the hand.

(g) Cards that are misdealt shall be returned to the dealer for a reshuffle. The following errors shall be cause for a misdeal:

(1) Failure to shuffle and cut the cards in accordance with § ~~635a.7~~ 635a.5 (relating to shuffle and cut of the cards).

(2) Dealing to an incorrect starting position if the error has been detected prior to two players voluntarily placing bets into the pot.

(3) If more than one card is found face up in the deck.

(4) Failure to deal to an eligible seated player, if the error has been detected prior to two players voluntarily placing bets into the pot.

(h) If one or more cards are mistakenly dealt to an ineligible player, the cards dealt to that player shall be discarded and the round of play shall continue.

(i) If at any time during a round of play missing cards are discovered or additional cards are found, the round of play shall be voided, all value chips, tournament chips and plaques in the pot shall be returned to the appropriate player and the deck shall be replaced.

(j) A card found face up in the deck may not be used in that round of play and shall be placed with the pile of discarded cards.

(k) A player who fails to take reasonable means to protect his hand shall have no redress if his hand becomes

a fouled hand or the dealer accidentally collects the hand, provided that:

(1) Hole cards in a game of Stud Poker shall be considered protected for purposes of fouling a hand.

(2) If a protected hand comes into contact with discarded cards, every effort shall be made to reconstruct the hand and complete the round of play.

(3) A player who has a protected hand collected by the dealer or fouled by discarded cards shall be entitled to a refund from the pot of all moneys that the player put in the pot if the player has been a victim of and not a contributor to the error.

(4) A player who leaves the table without comment and has an unprotected hand shall be assumed to have no interest in the pot and his cards shall be collected and discarded.

(1) Verbal statements which are clearly audible by and directed to the dealer shall always have precedence over actions and gestures and are considered binding on the player whose turn it is to act.

(1) A player shall be deemed to have folded if, when faced with making or calling a bet, the player:

(i) Discards his hand face down towards the pile of discarded cards or the pot.

(ii) Turns his up cards in a game of Stud
Poker face down.

(2) If a player is obligated to place a bet as a
Blind Bet, Forced Bet or by virtue of a verbal statement,
throwing away his cards does not relieve the player of that
obligation.

(m) In Seven-card Stud, if a player's first or second
hole card is accidentally turned face up in the dealing
process, the third card shall be dealt face down. If both
hole cards are accidentally turned face up, the dealer
shall collect the two cards, call the player's hand void
and return the player's Ante bet, if applicable. If a
player's third hole card is accidentally turned face up in
the dealing process, the player shall be afforded the
option to either:

(1) End his obligation to make additional bets
and contend only for that part of the pot formed prior to
any additional betting.

(2) Continue to contend for the entire pot.

(n) In Five-card Stud, if a player's hole card is
accidentally turned face up in the dealing process, the
second card shall be dealt face down.

(o) If a card is accidentally dealt off the table, the
card may not be used in that round of play and shall be

placed with the pile of discarded cards after a thorough examination of the card by the dealer.

(p) In the games of Hold'em and Omaha Poker, if any of the cards that are required to be dealt face down to a player are accidentally dealt face up, the dealer shall exchange the exposed card with a card from the top of the deck and place the exposed card face down with the pile of discarded cards.

(q) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(r) If an automated card shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that the automated card shuffling device is out of order placed on the device before any other method of shuffling may be utilized at that table.

(s) A certificate holder may clarify and supplement the procedures related to irregularities in this section in the certificate holder's Rules Submission under § 601a.2.

§ 655a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 655a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)-(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage,

inspections and removal from use), subsections (a)-(d) do not apply.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated card shuffling device shall place the deck of cards in a single stack; provided, however, that the certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall do the following:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 655a.8, § 655a.9 or § 655a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(f) If there is no gaming activity at a Mississippi Stud table that is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player is afforded an opportunity to visually inspect the cards, the procedures in § 655a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

~~(g) In lieu of the dealing and shuffling requirements in this section, a certificate holder may utilize a dealing shoe or other device designed to automatically reshuffle the cards provided that the device and procedures for dealing and shuffling the cards through the use of this device are approved by the Bureau of Gaming Laboratory Operations.~~ A CERTIFICATE HOLDER MAY UTILIZE A DEALING SHOE OR OTHER DEVICE THAT AUTOMATICALLY RESHUFFLES AND COUNTS THE CARDS, PROVIDED THAT THE DEVICE IS SUBMITTED AND APPROVED IN ACCORDANCE WITH § 461a.4 (RELATING TO SUBMISSION FOR TESTING AND APPROVAL), PRIOR TO ITS USE IN THE LICENSED FACILITY. IF A CERTIFICATE HOLDER IS UTILIZING THE APPROVED DEVICE, THE REQUIREMENTS IN SUBSECTIONS (d) - (f) DO NOT APPLY.

(a) Wagers at Mississippi Stud shall be made by placing value chips, ~~or~~ plaques OR OTHER BOARD APPROVED WAGERING INSTRUMENTS on the appropriate betting areas of

the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at the Mississippi Stud table may place a wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante, ~~and~~ Progressive Payout AND THREE CARD BONUS Wagers shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedure in § 655a.8, § 655a.9 or § 655a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 655a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer announces "no more bets" and begins dealing the cards.

(d) The following wagers may be placed in the game of Mississippi Stud:

(1) To participate in a round of play, a player shall place an Ante Wager.

(2) 3rd Street, 4th Street and 5th Street Wagers made in accordance with § 655a.11(b), (d) and (f).

(3) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player at a Mississippi Stud table the option to make an additional Progressive Payout Wager that the player will receive a Progressive Payout Hand. After placing an Ante Wager, a player may make an additional Progressive Payout Wager by placing a value chip into the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

(4) A CERTIFICATE HOLDER MAY, IF SPECIFIED IN ITS RULES SUBMISSION UNDER § 601a.2, OFFER TO EACH PLAYER AT A MISSISSIPPI STUD TABLE THE OPTION TO MAKE AN ADDITIONAL THREE CARD BONUS WAGER THAT THE THREE COMMUNITY CARDS WILL FORM A THREE-CARD POKER HAND OF A PAIR OR BETTER AS DEFINED IN § 655a.6(c) (RELATING TO MISSISSIPPI STUD HAND RANKINGS).

(e) A player may not wager on more than one player position at a Mississippi Stud table.

§ 655a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance IN ACCORDANCE WITH § 601a.10(g) (RELATING TO APPROVAL OF TABLE GAME LAYOUTS, SIGNAGE AND EQUIPMENT). Once the procedures required under § 655a.5 (relating to the shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce "no more bets" and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) Two cards face down to each player who placed an Ante Wager in accordance with § 655a.7(d)(1) (relating to wagers).

(2) Three cards face down to the area designated for the placement of the community cards.

(e) After two cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 655a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 655a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to

use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing the cards, the dealer shall announce "no more bets" and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall then collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) Two cards face down to each player who placed an Ante Wager in accordance with § 655a.7(d)(1) (relating to wagers).

(2) Three cards face down to the area designated for the placement of the community cards.

(c) After two cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt,

all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 655a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 655a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealing shoe dispensing any stacks, the dealer shall announce "no more bets" and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the

player farthest to the dealer's left who has placed an Ante Wager in accordance with § 655a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager.

(c) After each stack of two cards has been dispensed and delivered in accordance with this section, the dealer shall remove the remaining cards from the automated dealing shoe and, following the procedures in § 655a.9(a)(2) (relating to procedure for dealing the cards from the hand), deal from his hand the three community cards. EXCEPT AS PROVIDED IN SUBSECTION (d), AFTER ~~After~~ all three community cards have been dealt, the dealer shall, ~~except as provided in subsection (d),~~ place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine that the correct number of cards are still present in the deck. The dealer

shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the three community cards may be dispensed before the two cards are dispensed to each player.

§ 655a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 655a.8, § 655a.9 or § 655a.10 (relating to procedure for

dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Mississippi Stud shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(3) A player may not exchange or communicate information regarding his hand prior to the dealer revealing all of the community cards. Any violation shall result in a forfeiture of all wagers on that round by such person.

(b) After each player has examined his cards and replaced them face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to place a 3rd Street Wager in an amount equal to one, two or three times the amount of the player's Ante Wager or fold. If a player folds, the Ante Wager shall be immediately collected and

placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout OR THREE CARD BONUS Wager in which CASE the cards shall be left on the table until all wagers are resolved in accordance with subsection (i).

(c) Once all players have either placed a 3rd Street Wager or folded, the dealer shall turn over and reveal the first community card.

(d) Each player shall then either place a 4th Street Wager in an amount equal to one, two or three times the amount of the player's Ante Wager in the designed 4th Street betting area or fold. If a player folds, the Ante Wager and 3rd Street Wager shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout OR THREE CARD BONUS Wager in which CASE the cards shall be left on the table until all wagers are resolved in accordance with subsection (i).

(e) Once all remaining players have either placed a 4th Street Wager or folded, the dealer shall turn over and reveal the second community card.

(f) Each player shall then either place a 5th Street Wager in an amount equal to one, two or three times the amount of the player's Ante Wager in the designed 5th Street betting area or fold. If a player folds, the Ante Wager and the 3rd Street and 4th Street Wagers shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout OR THREE CARD BONUS Wager in which CASE the cards shall be left on the table until all wagers are resolved in accordance with subsection (i).

(g) Once all remaining players have either placed a 5th Street Wager or folded, the dealer shall turn over and reveal the third community card.

(h) If a player has placed an Ante Wager and a Progressive Payout OR THREE CARD BONUS Wager but does not make a 3rd Street, 4th Street or 5th Street Wager, the player shall forfeit the Ante Wager, the Progressive Payout Wager and, if applicable, the 3rd Street and 4th Street Wagers but shall not forfeit the eligibility to receive an Envy Bonus under § 655a.12(C)(5) (relating to payout odds; Envy Bonus; rate of progression) OR A THREE CARD BONUS PAYOUT UNDER § 655a.12(D).

(i) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn over and reveal the player's cards. The dealer shall then evaluate and announce the best possible five-card poker hand that can be formed using the player's two cards and the three community cards. The wagers of each remaining player shall be resolved one player at a time regardless of outcome. All wagers shall be settled as follows:

(1) All losing wagers shall immediately be collected by the dealer and placed in the table inventory container and the player's cards shall be collected and placed in the discard rack.

(2) If the player's five-card hand is a pair of 6s, 7s, 8s 9s or 10s, the player's hand is a push. The dealer may not collect or pay the wagers, but shall immediately collect the cards of that player.

(3) All winning Mississippi Stud wagers shall be paid in accordance with the payout odds in § 655a.12(a).

(4) After settling the player's Mississippi Stud Wager, the dealer shall settle the Progressive Payout ~~Wager~~ OR THREE CARD BONUS WAGERS, if offered by the certificate holder-, AS FOLLOWS:

(I) If a player has won the progressive payout, the dealer shall:

~~(i)~~ (A) Verify that the hand is a winning hand.

~~(ii)~~ (B) Verify that the appropriate light on the progressive table game system has been illuminated.

~~(iii)~~ (C) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

If a player has won a progressive payout that is 100% of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

~~(v)~~ (E) Pay any Envy Bonus won in accordance with § 655a.12(c)(5). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Mississippi Stud table is the holder of an Envy Bonus Qualifying Hand. Players are

entitled to multiple Envy Bonuses if more than one player is the holder of an Envy Bonus Qualifying Hand; provided, however, that a player is not entitled to an Envy Bonus for his own hand.

(II) IF A PLAYER HAS WON THE THREE CARD BONUS, THE DEALER SHALL PAY THE WINNING THREE CARD BONUS WAGER IN ACCORDANCE WITH § 655a.12(d).

If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Play Wager, shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 657a.8, § 657a.9 or § 657a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). (e) A player may not wager on more than one player position at a Crazy 4 Poker table.

§ 657a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance IN ACCORDANCE WITH § 601a.10(g) (RELATING TO APPROVAL OF TABLE GAME LAYOUTS, SIGNAGE AND EQUIPMENT). Once the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce "no more bets" and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing

shoe and placed face down on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 657a.7(d)(1) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(e) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 657a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce "no more bets" and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 657a.7(d)(1) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(c) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection

(d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 657a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets" and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed a wager in accordance with § 657a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise

around the table, deliver a stack face down to each of the other players who has placed a wager in accordance with § 657a.7(d)(1). The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were

misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 657a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 657a.8, § 657a.9 or § 657a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Crazy 4 Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed Ante and Super Bonus Wagers if he

wishes to forfeit the Ante and Super Bonus Wagers and end his participation in the round of play or make a Play Wager in an amount equal to the player's Ante Wager; provided, however, that a player who has a pair of aces or better may place a Play Wager in an amount up to three times the player's Ante Wager. If a player:

(1) Has placed Ante, Super Bonus and Queens Up Wagers but does not make a Play Wager, the player shall forfeit all three wagers.

(2) Has placed Ante, Super Bonus and a Progressive Payout Wagers but does not make a Play Wager, the player shall forfeit all three wagers and but may not forfeit the eligibility to receive an Envy Bonus under § 657a.12(d)(5) (relating to payout odds; Envy Bonus; rate of progression).

(c) After each player who has placed an Ante and Super Bonus Wager has either placed a Play Wager on the designated area of the layout or forfeited his wagers and hand, the dealer shall collect all forfeited wagers and associated cards and shall place the cards in the discard rack. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking four-card poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player

farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the five cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and form the highest possible ranking four-card poker hand for each player.

(3) If the dealer's highest ranking four-card poker hand:

(i) Is ranked lower than a king, the dealer shall return each player's Ante Wager and pay out the Play and Super Bonus Wagers made by the player in accordance with the payout odds in § 657a.12(a) and (b); provided, however, that the player's Super Bonus Wager will be returned if the player's winning hand is not a straight or better.

(ii) Is a king or better, and the player's highest ranking four-card poker hand is ranked:

(A) Lower than the dealer's four-card poker hand, the dealer shall immediately collect the Ante and Play Wagers made by the player but shall pay out the

Super Bonus Wager made by the player in accordance with the payout odds in § 657a.12(b).

(B) Higher than the dealer's four-card poker hand, the dealer shall pay the Ante, Play, and Super Bonus Wagers made by the player in accordance with the payout odds in § 657a.12(a) and (b). The player's Super Bonus Wager will be returned if the player's winning hand is not a straight or better.

(C) Is equal in rank to the dealer's four-card hand, the dealer shall return the Ante and Play Wagers and pay out the Super Bonus Wager in accordance with the payout odds in § 657a.12(b). The player's Super Bonus Wager will be returned if the player's winning hand is not a straight or better.

(d) After settling the player's Ante, Play and Super Bonus Wagers, the dealer shall settle any Queens Up Wager by determining whether the player's four-card poker hand qualifies for a payout in accordance with § 657a.12(c). A winning Queens Up Wager shall be paid irrespective of whether the player's four-card poker hand outranks the dealer's hand.

(e) After settling a player's Ante, Play, Super Bonus and Queens Up Wagers, the dealer shall then settle the Progressive Payout Wager, if offered by the certificate

holder. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(1) Verify that the hand is a winning hand.

(2) Verify that the appropriate light on the progressive table game system has been illuminated.

(3) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(4) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 657a.12(d)(1). If a player has won a progressive payout that is 100% of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(5) Pay any Envy Bonus won in accordance with § 657a.12(d)(5). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Crazy 4 Poker table is the holder of an Envy Bonus Qualifying hand. Players are entitled to multiple Envy

Bonuses if more than one other player is the holder of an Envy Bonus Qualifying hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(f) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 657a.12. Payout odds; Envy Bonus; rate of progression.
