Subject: Comment on IRRC 2928

Dear Sirs or Madam:

I was unable to use your contact link on your website.

Please accept this as public comment on IRRC 2928 for State Board of Education Final Omitted Regulation 6-325, due for vote on 3/15/2012.

I strongly oppose this regulation as an unfunded mandate that imposes unnecessary economic burdens on the local municipality.

This unfunded economic mandate results from the required Safe Schools reporting reconciliation required in the Act. Smaller Police Departments like ours lack the required resources to spend days reviewing for reconciliation inaccurate School District Safe Schools reports. The local mandated school districts have never submitted a Safe Schools report that was easily reconciled.

To comply would involve days of work or thousands of dollars in non-reimbursed overtime.

Thank You,
Stephen A. Mazzeo
