Subject: NO to Common Core Standards

Message:

To Whom It May Concern, I am writing to object to the US Common Core standards. I very much believe that the US Government should not dictate how the individual states choose to teach their children. I am very dismayed that schools are getting perks to implement the Common Core standards within their districts. I am also very worried about the computer testing and data collection that will be done through this program. I am asking you to halt any further implementation of common core standards. Thank you!
