Subject: Common core

Message:

Just applauding you for listening to parents who have thus far found common core to be a great concern for American children. The Math is substandard at best and the approach to literature is, frankly, un-American. In this country, parents should have the right to determine the best interests of their children. with common core standards, my choice is ignored. Now, schools are faced with decisions that will threaten their waivers from the department of education. This practice is unconstitutional. Please eliminate further involvement by the U.S. Department of Education in our state education standards.
