Subject: common core/pa core standards

Message:

It is with much review and investigation that I must ask of you to seriously consider the disasterous affects of the common core program/pa core standards. Although our children are of great ability and intelligence, a program silentlyimplemented with financial promises,never tested and proven to be with serious errors is a frightening detriment to the future of our children and country. I ask that you give serious consideration to the hidden costs of this odd and inefficient program as well as to the stress and legitimate anxiety it places on our children.
