Subject: RE: PA Core Standards

Dear Sir/Madam,

I am urging everyone involved to hear the parents of the children being raised in PA. The "Common Core" is not what the original intentions were. It has become an incredibly twisted vortex of agendas that will create nothing but detrimental results across the board. It is NOT wanted by the majority. THAT should be enough to keep it from becoming the standard.

It is time to start over and try again. Hear the parents and educators that are pointing out the unacceptable flaws and heavy burdens inflicted via these proposed standards. Government officials are public servants and this should be clearly reflected by the decisions made by them.

Thank you,

Annissa Bollin
Red Lion, PA
