**Message:**

Not many of our citizens are aware of what common core is all about. I believe it is an effort to take over the state's authority to allow our school boards and committees to determine what is best for our schools, our children,, curriculum and education. Once we lose that authority to these special interest organizations, and accept a stimulas from the the Feds, we will lose our power in the states, as well as locally. Where are the Feds getting money for this stimulas and why are they offering us money, when they are are at an all time hight of spending \$17 trillion dollars. If the states accept their so called stimulas, don't you think that the Feds are going to control the states in yet another way?? This administration has been trying to implement regulations in every area. I hope that our state will not let them control our schools.!!!
