Subject: Control of Education

Message:

When my children were in public school, 25 years ago, I was disgusted that I was not regarded as a customer. The school district did what they wanted regarding my children's education. It appears that the control freaks in our educational establishing are getting even more out of control. Pennsylvania used to be a free state, but we are getting less free. We are already a police state. I have little confidence that you care what I think. But if you do, please let people be free.
