Subject: Common Core

Message:

Dear Reader, I understand that in the next few weeks this committee will be evaluating the Common Core program. I am very much opposed to this program being adopted in Pennsylvania. Education of our children should be managed as close to the local level as possible, Having national standards removes parents, teachers and local businesses from developing a curriculum that is pertinent to the affected community. Further, any program as sweeping as this should be evaluated and approved/denied not by committee but through referendum or legislation. I urge you to keep school curriculum and standards at the local level and not adopt/approve moving Common Core forward in Pennsylvania. Thank you for your evaluation. James M Mostyn III Chester County
