Subject: rejecting the common core

Message:

The school system is not helping our students as it is with the no child left behind. To use common core standards would be worse. Standards have been lowered and I can't see society surviving with even lower standards. The sense of entitlement I am seeing from students currently is unbelievable. We need to step back and take control of our education, promoting self worth, common sense and pride in our academic accomplishments, and not everyone receiving an award for participation.
