Subject: Stop Common Core

Message:

Common Core is really just a huge expansion of "No Child Left Behind" on a larger scale...and we see what an epic fail that was...we should not teach our children to the level of the least common denominator, but encourage them to strive to be all they can be. Common Core wants to keep everyone on the same level...just like socialism. Moreover, even more tax dollars will be stripped away from the hard-working middle class to pay for all these new government programs that always fail! Please get rid of Common Core!
