Subject: Common Core

Message:

I view Common Core as a gross encroachment by the federal government on sovereign states. it is the responsibility of parents and the states to educate young people on the real history of america.our schools are in big trouble all across america because of the federal government with a bureaucracy like the department of education. they have not helped since there inception they have hurt the educational system. look at there track record. the system is broken. we have a responsibility as parents and tax payers to make our views known when a great or small number of parents do not agree with these programs. and law makers have to respect our wishes and act accordingly. stop common core we can do better.
