Subject: Please STOP Common Core in PA

Message:

Hi, Common Core is going into effect this year in my kids school. They call it the "new curriculum". Well, I have seen some of it and I am not impressed. So far, my A student son (who loves school) is telling me he is board in school. The federal gov has no business educating our kids. I pay thousands in taxes. Do I need to quit my job and go on public assistance just so I can stay home and homeschool my children? Sounds drastic, but it may come to that. Common Core is another federal overreach and must be stopped. Please reject these regulations in PA. Our kids deserve better than an assembly line education.
