**Subject:** Common Core

**Message:**

Review Commission I,m writing this to express my concerns about Common Core in PA or anywhere in the US. This is nothing more than overreach and dictatorship of the Federal Gov. Why would anyone want to put all the children in a one size fits all box. Why would you want to take away the freedom and choice from PA and all the counties to make their own decisions on what to teach and how to teach. We pay local taxes to fund our local schools so why not let the locals decide?????????????. Why is it wrong to say to little Johnny that hes better than some one else a math or sports.Why do we want to set them up for failure? Do you want the Feds to tell your child you will only do good in life if you follow a certain career? With all the problems with ACA Obamacare, Lybia,Egypt,CIA, NSA and debit crisis and no budget in 6 years, sky rocketing debt , unemployment , increased poverty. Why in Gods name would you even consider handing over education of your children and grand children to the Feds????????? The only reason would be to get Fed money? Do you really want to sell your kids and grand kids future, plus your Liberty and freedom for a little extra money today ?????????? Stop them from taking our freedom. Please rule wisely and rule no on common core. Thanks
