**Subject:** Pennsylvania Common Core

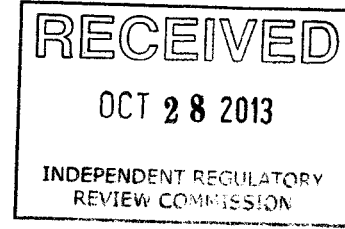

**Message:**

To Whom It May Concern: I wanted to make known my objection to the implementation of the Pennsylvania Common Core standards in our state and request that you reject this regulation. I am a resident and taxpayer of Pennsylvania and have (2) young children in the public education system. The broad standardization of education is not only unacceptable as a concept, but is unacceptable for my children who span both ends of the education spectrum: one requires additional help that he would not receive should an "equal to average" lesson plan be implemented and the other is somewhat advanced and would be harmed and slowed with this approach. In addition, I am strongly apposed to the collection of personal data on my children that this system would impose. Finally, the rhetoric that this system does not take away local control of how and what our children are learning is at the least disingenuous and at the most insulting to my own intelligence. I hope my concerns are taken into consideration and that this program not be forced upon me, my children or my community. Thank you, Tony Kennedy Pennsylvania Parent and Taxpayer

**Message:**

Instead of have an NGO write up standards for Pennsylvania, why didn't we draw from our own excellent Blue Ribbon programs and use our own stuff? We are turning out very educated and motivated kids in these schools. We have the recipe for success. Let's use our State Sovereignty and get out of this mess! Leigh Hughes

**Message:**

Reference IRRC No. 2976 Dear Mr. Sumner, Please put a stop to the implementation of Pa Core Standards immediately. First and foremost, no one can determine how much it will cost. Secondly, one size does not fit all re: education. These standards are unclear and have yet to be tested. Stop, before more children are used as guinea pigs.

**Message:**

I am concerned about the cost to Pennsylvania and Wissahickon School District to implement this plan. I can find no hard financial data re this plan With the increased cost of state pension benefits, etc. I urge you to DISAPPROVE OF THIS PLAN Does anyone really know its effect on education. Also this overreach is in violation of at least 3 Federal Laws based on Pioneer Institute's latest info dated September 2013

**Subject:** Stop Common Core

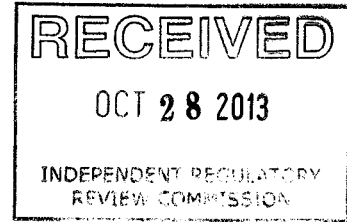

**Message:**

Our children, grandchildren NEED good educations, please don't let Common Core start dumbing them down...the kids today have a hard enough time finding good paying jobs, this will make it worse for them in the future. In turn, it will make them more lazy, which will make them want to rely on government hand outs instead of finding work. This country cannot afford another government take over either, our tax dollars are wasted too much as it is. THIS HAS TO STOP!!! Thank you!
