**Subject:** Common Core

**Message:**

I have been following the adoption of the new PA Common Core Standards and have serious reservations about the unavoidable unfunded mandate this will generate for school districts due to technology requirements and consequences of not meeting proficiency cut offs for exams and graduation requirements. No reliable cost figures have been provided and the nature of the mandatory retesting, project based assessments and state interventions leave districts in position of not knowing what the cost of implementing Common Core will ultimately be. This in effect is an unfunded mandate.

**Message:**

I have read the Common Core guidelines for my local district. Stop wasting time on this and spend time on basics as described by the local district instead of having the local district wasting time and money on an unproven, unnecessary change.
