**Subject:** Keystone States Testing for Graduation

Hello administrators,

I am a parent of a West Chester Area School District student and I am very much in opposition to a state regulated test for graduation. Our local school district does an outstanding job in educating our young people and therefore, I feel the graduation requirements should be set locally and not by a state mandated test.

I hope for the sake of all students that you will take this mandate away.

Thank you,

Stephanie A. Reid
