Subject: Common Core

Message:

Thank you for doing EVERYTHING you can to fight this! I pay for my child to attend a private school. I am a single mom living at poverty level to make sure she has the education she deserves. From what I understand, if this goes through, the children attending even private schools will be forced to follow this (mediocre at best) curriculum. The government needs to back off and get out of my daughter's EXCELLENT education and put the money into improving the public schools that I refused to put my daughter into!
