A new message has arrived from the IRRC Website

**First Name:** Gwen

**Last Name:** Oscar

**Company:**

**Email:** [gwengos@verizon.net](mailto:gwengos@verizon.net)

**Subject:** Common Core

**Message:**

I am writing to tell you I am AGAINST Common Core. I will explain to you a few reasons why. 1.) I do not think the Federal or State government know better than parents or administrators of our local schools what is needed at a local level for our children. 2.) I don't think with the economy the way it is that anyone can afford to spend money they do not have or know where they are going to get it (probably local tax payers). 3.) Until they can PROVE the outcome of these changes they are trying to put in place we should not enact them. Maybe the above points are a little bit of COMMON SENSE but until some of these things have been done we in PA should halt the implementation of COMMON CORE.
