A new message has arrived from the IRRC Website

First Name: Jared

Last Name: Quirk

Company:

Email: j.quirk@mail.com

Subject: PA Core Standards

Message:

Please stop the implementation of the PA Core Standards immediately. There are several questions that need to be answered before the standards are implemented. First, we need to know how much it will cost. Second, we need to know how it will be funded. Will this cause tax increases in already burdened school districts? Lastly, why are these standards being forced on every school district without first doing testing to prove that they will work? Thank you for your consideration of these very important questions.
