Subject: IRRC Website - New Message

A new message has arrived from the IRRC Website

First Name: Mr & Mrs. Eric

Last Name: Sloane

Company:

Email: homefolks@verizon.net

Subject: Common Core

Message:

This educational atrocity must be stopped! NOW!! Not only are we forcing our children into a 'one size fits all' style of education/curriculum...it is an unfunded mandate. How will this be paid for? Our taxes are high enough now thank you. The very idea that beaucrats are willing to force these issues down our throats with little or no debate is wrong, and dangerous! Our children deserve better. They deserve their education to be developed and implemented by the states, local school boards, teachers and parents...NOT THE FEDERAL GOV'T!!!! (In the end that is where this all comes down from). Changing the name from Common Core to PA Core Standards won't work either. It insults our intelligence....we won't support this by ANY name! Please do the right thing by our children and return their education to our local districts, teachers...and their parents. We do NOT need more mandates...and we certainly do NOT need UNFUNDED mandates! Mr. & Mrs. EW Sloane
