Subject: Pennsylvania Core Standards

Message:

Dear Mr. Summer, I am writing to you, and this will not be the last time, requesting that Pennsylvania roll back its adoption of the Common Core standards, or Pennsylvania Core Standards. Its costs are unknown, the fact it was passed in a rush without the normal vetting process is unacceptable. It takes the control out of the hands of the local districts and is clearly in violation of the 10th Amendment. The states have been coerced into to adopting these untested standards and our children, my children will suffer. Many of the experts who sat on the committee for the Common Core standards refused to sign off on the finalized version because the standards are weak and lower quality of education. In fact, it is likely that under these Common Core standards students will not be prepared for college level math. We are already behind other high achieving countries and this will only lower our scores more on a global stage. Repeal Pennsylvania Core Standards !! Thank you, Janine McClintic
