**Subject:** REJECT COMMON CORE STANDARDS

**Message:**

Reference IRRC No. 2976 Dear Mr. Sumner, From my perspective as a high school math teacher, I strongly oppose adoption of PA Common Core standards. The math requirements are weaker than what is already taught in the PA curriculum. There are entire segments of curriculum that are not covered/required. My concern is that for the cost of adopting new books/materials, the end result will be a substandard curriculum that costs an excessive amount of money! Sincerely, Leslie Mitros Math Teacher Aquinas Academy
