**Email:** [sacredbread@gmail.com](mailto:sacredbread@gmail.com)

**Subject:** PLEASE STOP COMMON CORE!

**Message:**

To Whom It May Concern, As a parent and taxpayer, who has thoroughly researched the Common Core initiative for the PA schools for several months now, I respectfully ask that the implementation of this program be halted immediately. I have serious concerns over the general lowering of academic standards, control over the curriculum being taken out of the hands of parents and local school boards, government intrusion and social indoctrination, taxes and other costs. Much of the CC Math curriculum has not been sufficiently tested, and amounts to unwarranted experimentation on our children. The Reading curriculum is terribly flawed, in many cases replacing the reading of literary classics with users manuals. Please let reason and common sense prevail in PA and put a stop to the Common Core initiative immediately! Thank you!
