Subject: Pennsylvania Core Standards

Message:

Dear Mr. Sumner, Please stop Pennsylvania Core Standards immediately! No one can determine how much it will cost. The school districts are already overwhelmed with budget problems and the imminent pension crisis. PA. Core Standards is just another unfunded mandate. How can we implement something without knowing the costs. This is reckless on anyone's part! Also, PA Core Standards brings on additional testing that is a public health concern. Over testing causes our students physical and psychological stress that is not necessary and is dangerous. There's a huge movement here in PA against High Stakes testing. Opting out is becoming a movement. PA Core Standards are bad for our students(our children) and the tax payer. PLEASE STOP this unfunded and unfounded regulation. Sincerely, Rita Misero
