**Subject:** IRRC#2976

**Message:**

Dear Mr. Sumner, I am asking your help in stopping the intrusion of the Common Core Curriculum in our children's schools. It is a crime to continue to permit the federal government to abscond with our states rights. Our federal government has shown us they clearly have no interest in the country and the betterment of anything except their elitest wants and wishes. This is America - the home of the free and the brave. What happened?! Let us teach our children these truths and not the importance of reading an air conditioning manual rather than classic literature. Stop allowing the lies of intense and rigorous confuse the propaganda campaign behind it. Stop pushing the parents rights aside. We are the ones who pay the taxes to keep the schools operating, we have a voice. Listen. Hear what we say. Act out of righteousness. Thank you for hearing my plea for your support. Warmest Regards, Sally
