Subject: Pa Core Standards

Message:

I am writing to request that do not implement the Pa Core Standards program at this time. There are unfunded mandates and the program should not be implemented until we know how much it will cost. Do not force this on school districts without testing it out first. as they are already financially strapped.. I think the solution is not a new expensive program/mandates for schools. It is returning to the basic education process where I, as a senior citizen, learned Thank you
