**Subject:** Keystone Exams

2012 OCT 19 AM 9: 21

To whom it may concern:

I oppose the Keystone exams for the following reasons:

We currently have objective assessments that measure our students progress and achievement. The costs to administer these tests are high and strain an already slashed budget. There are also supplemental instructional costs to instruct for these tests not to mention the time taken away from learning. The list of reasons go on and on and I believe you've heard them. I just want to voice my opinion that as a taxpayer and resident of Tredyffrin, PA I am opposed!
