Please register my and my family's complaint against any Federal involvement in the education system of our Commonwealth. As both a resident of Pennsylvania and the legal director of the Pennsylvania Tenth Amendment Center, I take seriously the Constitution's limited express powers granted to the Federal Government. Unless and until the US Constitution is amended to allow for the regulation of or direct expenditure of federal tax dollars on education, the Tenth Amendment requires that such powers are reserved to the States (and which duty is expressly set forth in the Pennsylvania Constitution). Complying with or accepting dollars from any Federal educational program is an unconstitutional transfer of sovereignty from our State to the Federal Government. On this principle alone, I object.
