Subject: Proposed New Education Standards

IRRC

2012 NOV -5 PM 4: 35

To Responsible Officials, Elected and Unelected, in Pennsylvania:

Enough is enough! Stop this mad rush to tyranny and the usurpation of local input and control of education.

Apart from the common sense argument of the impossibility of "national" guidelines in a country as vast and diverse as are the entire United States, there still remains the fact of the tragic consequences clearly evident, and increasing, with every federal intrusion into the arena of education.

And, furthermore, there is NO lawful (constitutional) grounds for any federal intrusion into education.

Sincerely,
Carris Kocher
