Subject: Stop implementation of National Standards - IRRC # 2976

2012 NOV -5 PM 12: 55

I have reviewed the proposed changes to Chapter 4 Education Regulations and I respectfully request that you extend public comment on this IRRC item for at least another 30 days. This item is costly and questionable in its overall benefit, to say the least. I believe additional review by the people who will be most affected, we the Tax Payers of PA, is necessary.

Thank you,
